INTERNSHIP

WEB DEVELOPER, Bharat Intern

- It's a Virtual internship program at Bharat Intern where they have given several tasks to complete in a specific deadline.
- Created a responsive Portfolio website that ensured the web application was accessible on all devices.
- Created a Temperature converter application which all convert the given temperature into Kelvin, Degree celsius and Fahrenheit.

PROJECTS:-

INOTEBOOK

- Inotebook is a React Application for managing personal notes on the cloud.
- Also added login and logout functionality, password authentication, bcrypt to hash and store passwords and data is stored in mongoDB.

NEWZIFY

- Newzify is a news app built on React which can be used to grab quick daily news bites. If you are interested in news, weather, politics and sports, Newzify is for you!
- Used Rapid API's news API for this project

TEXTUTILS

- Textutils is completely built on React which is a word counter and a character counting utility which can be used to manipulate your text in the way you want.
- You can remove extra spaces, copy the manipulated text as well as covert your text from uppercase to lowercase and lowercase to uppercase.
